April 30, 2025

Dear Public Official:

This letter is to inform you that Ohio Power Company (AEP Ohio) intends to file an application to adjust its distribution rates with the Public Utilities Commission of Ohio (Commission) next month consistent with a commitment made in the Stipulation to Case No. 23-23-EL-SSO and to provide you with information regarding the expected impact of AEP Ohio's planned proposals on customers' distribution rates.

As you know well, since 2020, when AEP Ohio filed its last distribution rate case, our service territory and state have been through significant change, driven by forces that include population growth and macroeconomic pressures. Over the last five years, AEP Ohio has made significant investments in upgrading equipment, in utilizing technology to identify issues before they cause outages, and in finding ways to support the communities we serve. We have made the electric grid smarter and cleaner. Our state's economic growth and population changes need electricity, and we know there is more work to be done. In the upcoming rate case, AEP Ohio will ask the Commission to approve distribution rates that support the investments we have made since 2020 as well as to facilitate the investments needed to ensure that the electric grid continues to safely and reliably meet customers' demands into the future. AEP Ohio will also ask the Commission to approve distribution rates to continue to support AEP Ohio's efforts to offer technology that gives customers more control over their energy usage and programs that help customers reduce their energy use.

If approved by the Commission, AEP Ohio's new distribution rates will likely take effect in 2026.

AEP Ohio's formal notice of intent to apply for new rates is enclosed, together with a summary of the rates that would result from approval of its application. The enclosed rates are subject to change after public input and consideration by the Commission. Although this letter is a formal notice to you, AEP Ohio representatives are available to discuss AEP Ohio's rate proposal. Details regarding AEP Ohio's proposal, including proposed tariff schedules and typical bill comparisons, are also available on the Commission's electronic docket for this case, Case No. 25-0392-EL-AIR, at <http://dis.puc.state.oh.us/CaseRecord.aspx?CaseNo=25-0392&x=0&y=0>. If you have any questions about AEP Ohio's rate proposal or would like a hard copy of the proposed tariff schedules or typical bill comparisons, please feel free to contact the AEP Ohio External Affairs Manager for your municipality.

As always, we value your role as our customers and as elected representatives of the communities we serve.

Sincerely,

A handwritten signature in black ink, appearing to read "Marc Reitter". The signature is fluid and cursive, with the first name "Marc" written in a larger, more prominent script than the last name "Reitter".

Marc Reitter  
President and Chief Operating Officer  
AEP Ohio
