#### **ACTION ITEMS FROM THE CITY ENGINEER**

There are no action items from the City Engineer.

#### **ACTION ITEMS FROM THE DIRECTOR OF PUBLIC SERVICE**

There are no action items from the Director of Public Service.

#### **UPDATES**

**Hamilton Rd Central** - Throughout the upcoming winter months, crews will have temporary lane shifts throughout the project as they work to finish, street lights, and other miscellaneous minor items. As time and weather allows this Winter, the contractor will continue to work to complete remaining concrete work for driveways and sidewalks, while all final restoration and surface asphalt will be completed in the Spring/Summer of 2017.

Motorists should continue to expect delays throughout the construction zone, and are encouraged to consider other routes if they wish to avoid a possible delay in their travels.

Please click [here](#) if you would like to view our roundabout training videos. Any questions should be directed to the Department of Public Service at 614-342-4005.

**2017 Street Program ST-1044** – The annual street evaluation and rating has been completed that identifies maintenance needs for our City streets. The 2017 Street Program will consist of asphalt resurfacing, crack seal, and street rebuilds. Below is the list of streets recommended for the program. Also attached is a map that shows the proposed maintenance areas. The map is color coded so as to identify the type of maintenance for each location.
