

1141.08 YARD REQUIREMENTS.

Each lot shall have a front, rear and two side yards of not less than the following depths or widths:

- (a) The depth of the front yard shall be equal to or greater than the minimum distance between the building setback line and the street right-of-way line. In no case shall this distance be less than forty feet.
 - (b) The depth of rear yard shall be not less than twenty-five feet measured from the rear property line. A permitted unattached accessory use building or structure (**excluding fences**) shall be placed no closer than ten feet to the rear property line and shall not exceed fifteen feet in height. A **permitted** attached accessory use building or structure (**excluding fences**) shall be treated as an addition and may project into the rear yard a distance of not more than ten feet. A minimum of fifteen feet to the rear property line shall be maintained from an attached accessory use building or structure.
 - (c) Each side yard shall be not less than ten feet in width.
 - (d) No **permitted** accessory use building or structure **or fence** shall be permitted to encroach upon any area designated as a "No-Build Zone".
- (Ord. 46-89. Passed 5-2-89.)
