**RE: Beecher Road Widening
Hamilton Road to USR 62**

Gentlemen:

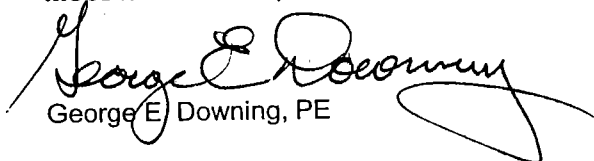

Reference is made our proposal dated January 29, 2001. Separating the design cost into calendar years 2001 and 2002 results in the following:

In 2001 we will complete the field survey, initiate preliminary utility coordination, and initiate construction plan preparation. The estimated cost for the work in calendar year 2001 is \$11,966 (see attached cost summary).

In 2002 we will complete the detailed construction plan and utility coordination. The estimated cost for the work in calendar year 2002 is \$21,140 (see attached cost summary).

If you have any questions please contact this office.

Sincerely,
MOODY/NOLAN LTD., INC.

George E. Downing, PE
