Re: Proposal for additional services for the Taylor Road improvement project.

Listed below are reasons for additional services:

Road plans have significantly changed through field meetings with property owner, city engineer and engineering consultant resulting in additional negotiations with adjoining property owners to resolve new concerns due to the changes.

It was determined that pre construction relocations of utilities would be better handled through **Hockaden and Associates, Inc.** as the relationship with the property owners was established and on favorable terms. This will result in additional meetings with the affected utilities and negotiations with the property owners. Additionally, an easement for a water line previously installed will be obtained.

Cost for additional services: \$5,000.00

If you have any questions or need additional information please do not hesitate to contact our office.

Very truly yours,
HOCKADEN AND ASSOCIATES, INC.

Robert Bower,
R/W Manager
