**RE: 365 Agler Road - Water Line**

Dear Karl:

I apologize for not sending you this sooner. In order to upgrade the waterline running through our site, you suggested replacing it with "new" ductile iron pipe. You said the city may be able to pay for the cost to do this work.

We have estimates (\$33,634 - see attached) for installing 213' of 16" waterline, along with required valves and hydrant, etc.

If you have questions or need anything further, please call me at 791-4211.

Sincerely,  
The THD GROUP
