She stated that she would like to invite the community to the next meeting to learn more about the Census. K. COUNCIL COMMENT

Mrs. Angelou thanked the girl scouts and their parents for attending and she wishes the girls all the best as they become leaders.

Mr. Leeseberg said he echoed Mrs. Angelou's sentiments

Mrs. McGregor said she enjoyed the girls giving the pledge of allegiance and thanked them.

Mr. Larick also thanked the girls for attending.

Mr. Schnetzer shared with the Council: I was sitting in church on Sunday and the pastor's sermon was on 1 Peter, which is basically a passage that talks about what is required in order to grow spiritually, and it goes as follows: therefore rid yourselves of all malice and all deceit, hypocrisy, envy, and slander of every kind. Later that afternoon I was working in the yard and my five year old came running out the back door asking to help, and as we're working together in the flower bed, he says "dad, I am going to be just like you someday". In that moment, I was stunned. Those words occupied my conscience the rest of the evening. It was a profound moment of self-reflection where I looked back on my personal actions to date and questioned whether I wanted my son to be just like me. The point I'm driving at here, is whether you subscribe to the words from 1 Peter, or not, and data suggest fewer and fewer Americans do, then perhaps you're moved by the fact that we are role models for the next generation, maybe reluctantly so. And to state the obvious, we are of course in an election season where the temptation is not to always act in the best manner, but I would implore everyone, candidates and supporters, to recognize that the kids are listening, they are watching, and it's incumbent upon us to at least give them a chance by setting aside all deceit, hypocrisy, envy and slander of every kind.

Mr. Renner said Mr. Schnetzer, well said and thank you young ladies for coming in tonight.

Mr. Metzbower also thanked the scouts for coming in and mentioned a Netflix series called Inside the Mind of Bill Gates that he said makes you appreciate what local government does. It's Bill Gates tackling the problem of sewage in third world countries. It gave him a new

perspective on what we do at the local level.
