Subject: Appeals Request for Notice of Defects (Sidewalk Repair) Gah. Code §903.4

We are writing to formally appeal Gahanna City’s request that we, as the property owners at 620 Codrington Circle, repair the sidewalk adjacent to our property. With the exception of #11, which we agree is in need of repair, all of the other parcel reports are trivial. We understand and appreciate the city’s commitment to maintaining safe and accessible walkways, but we believe this request should be reconsidered for the following additional reasons:

1. **Ownership and Responsibility:** The sidewalk in question lies within the public right-of-way and is used by the general public. As such, we respectfully contend that its maintenance and repair should be the financial responsibility of the city, not the adjacent property owner.
2. **Condition and Cause:** The “damage” appears to result from general wear and tear/slow settling into the earth rather than any action or neglect on our part. *Candidly, the alleged “damage” is not significant enough to be in need of repair at this time (with the exception of #11). Please see the supplemental pages for specific explanations for each claim.*
3. **Financial Burden:** The cost of sidewalk repair is substantial for our middle-class family with 3 young children. Requiring individual property owners to bear this expense is inequitable—especially when the sidewalks serve as shared public infrastructure. We consistently vote in favor for levies and taxes for our city, and this should be covered as part of it.

We respectfully request that the city review this matter to recognize that all of these proposed repairs (again, with the exception of #11) are unnecessary. If the city determines these are non-negotiable, then they should assume full fiscal responsibility for the repairs. We would appreciate written confirmation of the outcome of this appeal.

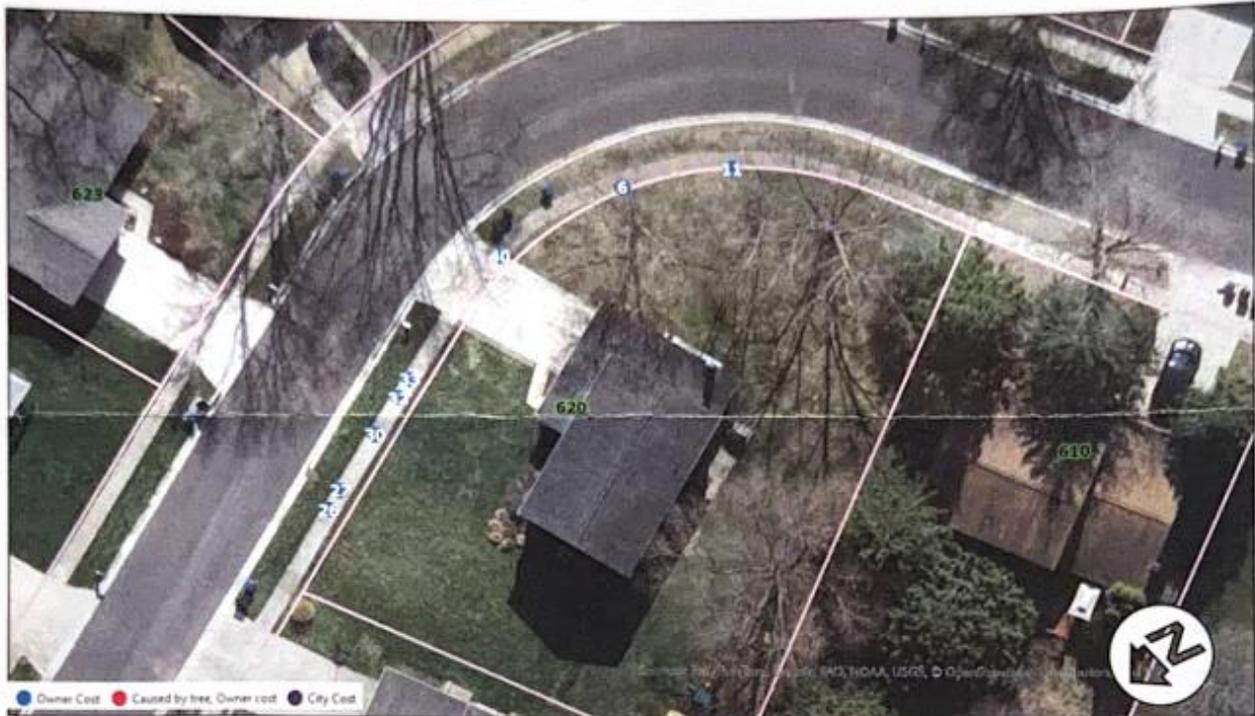

Thank you for your time and attention to this matter. We value the city of Gahanna’s efforts to maintain safe, walkable neighborhoods *within reason* and hope that we can reach a fair resolution.

Sincerely,

Michael & Lauren Keller

#6

D (Other conditions causing unsafe walking surface)

This is barely noticeable. There is a small gap, it is not a tripping hazard. We appeal to the city to withdraw this repair request.

#11 – NOT APPEALING

E (Minor Vertical Offset)

This is actually more than a “minor” issue, compared to the other ones also labeled as “minor.” We agree this should be repaired.

#40

E (Minor Vertical Offset)

This is incredibly minor, not at all a hazard. We appeal to the city to withdraw this repair request.

(This arguably should not be in the same descriptive class as #11.)

This is just offering a view of our sidewalk between our house and 630 Codrington. It is well-maintained, smooth, and in excellent condition.

This is where the rest of the claims were: 26, 27, 30, 32, and 33

#33

F (Major Vertical Offset)

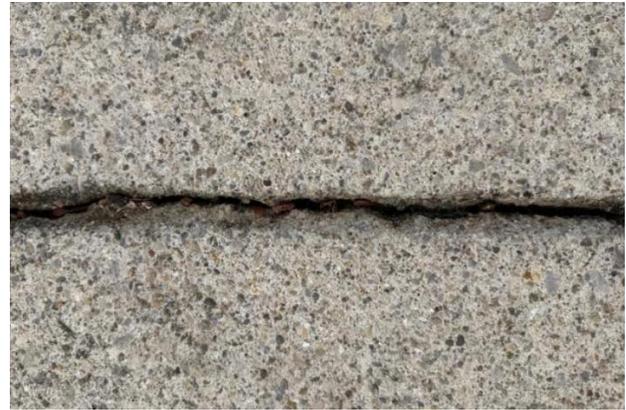

This is incredibly minor, again, not at all a hazard. We appeal to the city to withdraw this repair request.

#32

F (Major Vertical Offset)

This is incredibly minor, again, not at all a hazard. There is (and has been since we've lived here) a permanent black material/filler in this gap to avoid any gaps for injury risk. We appeal to the city to withdraw this repair request.

#30

E (Minor Vertical Offset)

This is incredibly minor, again, not at all a hazard. Just because there is a crack in the panel seam does not mean it is unsafe. We appeal to the city to withdraw this repair request.

#27

F (Major Vertical Offset)

This is incredibly minor, again, not at all a hazard. Additionally, just because there is a crack in the panel seam does not mean it is unsafe. We appeal to the city to withdraw this repair request.

#26

F (Major Vertical Offset)

This is incredibly minor, again, not a hazard. We appeal to the city to withdraw this repair request.

Hi Lauren,

I wanted to let you know that I received the receipt of your filing fee payment. And that your appeal has been filed on-time and is complete. This will likely be scheduled for hearing on Tuesday, January 27 at 6:30 PM, but that is a tentative date as of now. Hearings are held in-person at City Hall. Would this be a date and time that you could attend?

Thank you,

Hi Lauren,

All that is left is the payment for the filing fee (\$50). You are welcome to pay in person at Council Office (checks are preferred), or if using a credit card, you will need to connect with our customer service department to process your transaction 614-342-4440. Once that is received, your appeal is complete.

The public hearing will likely be scheduled for January, as we will need to see if others file by the December 19 deadline.

Let me know if you have any other questions.

Thanks,

JEREMY A. VANMETER
