SUBJECT: Council Report for Monday June 13, 2016

Discussion Item: 2017-2021 Capital Needs Assessment

The Administration has compiled the annual Capital Needs Assessment update. Per Council's request, this was produced several months ahead of our typical timeline to allow additional time for Council review. We will provide a brief run-through of the document at committee on June 13th. Staff will be prepared to answer Council questions about the process and individual projects over the next several committee nights.
