

Proposed Amendment language, Article IV, The Council

Section 4.02, COMPOSITION AND TERM

***“The geographical definition of the ward areas will be balanced based on population as determined by the federal decennial census, beginning after the results of the 2030 census are available. Adjustments to ward areas may be made only if there is a disparity of more than 20% in population between the largest and smallest wards. This will be established by ordinance, taking effect sixty (60) days prior to the petition filing deadline for the election of members of Council by wards, to remain effective for the term of the positions.”***
