

<b>Grant/Project Name</b>	<b>Water Tower Rehabilitation - Water and Wastewater Infrastructure Grant (WWIG)</b>	<b>Claycraft Waterline - Water and Wastewater Infrastructure Grant (WWIG)</b>	<b>E Johnstown Storm - Water and Wastewater Infrastructure Grant (WWIG)</b>	<b>Havens Corner Waterline - Water and Wastewater Infrastructure Grant (WWIG)</b>	<b>Taylor Station Claycraft Roundabout - Ohio Public Works Commission (OWPC)</b>
<b>Project description</b>	Repair and rehabilitation of Gahanna's 1.0 million gallon capacity water tower. A full inspection of the tower was completed in 2018; recommendations from that work included tank cleaning, exterior / interior recoating and various improvements to items such as railing, hatches, vents, valves and insulation. This water tower was originally constructed in 1992. It is the City's only storage tank and it is located in the pressure zone serving Gahanna's primary industrial / commercial corridor as well as residential customers. It is a critical component of Gahanna's water distribution system serving those customers.	Replace approximately 4,100 feet of 12-inch waterline from Morrison Rd to Taylor Station Rd. This line is one of the main source feeds to the water tower and serves some of the City's largest water consumers in the Industrial Area. Originally constructed in 1968, this main has experienced four (4) breaks since 2016 which caused water outages to residents and some of the biggest industrial users. request has been updated to cover the replacement of the entire transmission line that was installed in 1968. Replacing an existing 12" ductile iron water main with a new 16" pipe, new service line installations, hydrants and resurfacing the entire width / length of Claycraft Rd throughout the project area.	Project includes Stormwater and Ditch improvements along the west side of E. Johnson Rd between Colony place and Gayle Dr. This stormwater project includes significant roadside grading improvements and the installation of approximately 500-ft of new 18-inch and 24-inch storm sewer piping to resolve a long-standing drainage issue that could not be corrected with private, on-site improvements. The project site is E Johnstown Road near Larry Lane.	Replacement of approximately 3,400-ft of 8" and 12" water main located in Havens Corners Rd, between Oak Creek Place and Helmbricht Dr. In addition to the new main piping, this project will include new service line installations, hydrant replacements and surface restoration. The construction of this water main project will be completed in advance of future roadway improvements to Havens Corners Rd. Design of the project is complete with construction bidding shortly.	Reduce congestion at the intersection of Taylor Station and Claycraft Rd. by installing a modern roundabout.

<b>Grant/Project Name</b>	<b>Creekside Outdoor Refreshment Area - SWACO Community Waste Reduction Grant (CWRG)</b>	<b>National Recreation and Parks Association (NPRA) &amp; Niagara Bottling – Refresh Grant - Sundial at Sunset Park</b>	<b>Energy Efficiency Community Block Grant (EECBG) - 825 Tech Center</b>	<b>Inflation Reduction Act (IRA) - 825 Tech Center</b>	<b>Ohio Department of Natural Resources – Clean OH Trail Fund - Link to Literacy</b>
<b>Project description</b>	The funds from the CWR Grant will be used to improve and further enhance the City's recycling initiatives, with the purchase of approximately 30 recycling containers that will be placed throughout the Creekside Outdoor Refreshment Area (CORA) in the Creekside District. Additionally, the City will use the funds to purchase a double smart waste and recycling station for both trash and recyclable products. Funds will also go toward container messaging, branding and artwork that will educate the public on what products can be recycled and ways to reduce the waste that goes to the landfill	The City of Gahanna was awarded a grant for \$20,000 to complete a human sundial at Sunpoint Park. The Refresh Grants are available to agencies who previously received a grant through the National Recreation and Parks Association (NRPA) in partnership with Niagara bottling. The City of Gahanna qualified due to a grant award received in 2019 for the construction of two basketball courts at Sunpoint Park. The Refresh Grant requires the project to occur at the same sight as the initial award.	The funds from the EECBG are to upgrade and/or deploy clean energy technologies within the Municipal Complex construction project at 825 Tech Center Drive.	The IRA Tax Credits will be submitted for eligible upgrades and/or deployment of clean energy technologies within the Municipal Complex construction project at 825 Tech Center Drive.	The Clean Ohio Trail Fund (COTF) seeks to improve outdoor recreational opportunities for Ohioans by funding trails for outdoor pursuits of all kinds. The funds will be used to continue to research and ultimately construct the Link to Literacy trail which is an East/West trail connection from Walnut St., through Shull Park, behind the newly renovated Columbus Metropolitan Library Gahanna Branch and to Hamilton Rd.

<b>Grant/Project Name</b>	<b>Ohio Department of Natural Resources – NatureWorks Program Mountain Bike Trail</b>	<b>SWACO Public Event Recycling Equipment Grant</b>	<b>Ohio Department of Natural Resources – Division of Forestry – Prescribed Fire Step Grant</b>	<b>Ohio Department of Transportation - Active Transportation Plan Assistance</b>
<b>Project description</b>	The NatureWorks grant program provides up to 75% reimbursement assistance for local government subdivisions (townships, villages, cities, counties, park districts, joint recreation districts, and conservancy districts) to for the acquisition, development, and rehabilitation of recreational areas. The funding will be used to create a trailhead at Academy Parks servicing the Mountain Bike Trail as well as the Big Walnut Trail. The location was identified as a resource to provide trail users a dedicated location to prepare for their ride and to rest and rehydrate. It will be a hub to provide intentional space with trail rules and guidance, fully serviced bike racks, a water fountain and bike repair station. The space also lends itself to provide lessons for new riders as well as instruction on bike repairs. The grant was received with the support of a third party grant writer funded by the Parks and Recreation Foundation.	SWACO's Public Event Recycling Equipment Grant provides equipment to expand recycling efforts at public events. The intent of the equipment grant is to support community efforts to expand recycling to increase the volume of recovered materials and decrease the amount of waste sent to the Franklin County Landfill. The City of Gahanna received a kit needed for public event recycling, including Clearstream containers, transporter carts and signage	This cost-share reimbursement grant supports building prescribed fire management programs and projects in Ohio with 50/50 matching grants. Items that grant recipients may purchase through the STEP grant program include but are not limited to prescribed fire supplies, personal protective equipment, radios, tools, repair parts, weather data devices, pumps, signage/education materials, etc. Individual items/pieces of equipment purchased through the Prescribed Fire STEP grant program may not exceed \$4,999 in cost. The City of Gahanna will be using the funding for prescribed fire education and hand tools.	The purpose of the Active Transportation Plan Development Assistance is to select and support local governments with the development of a standalone active transportation plan that ultimately impacts Ohio's six Active Transportation goals, outlined in Walk.Bike.Ohio: Network Connectivity – Promoting comfortable and continuous bicycle and pedestrian facilities that connect people to destinations. Safety – Reducing bicyclist/pedestrian injuries and fatalities. Equity – Ensuring the system accommodates users of all ages, abilities and incomes. Network Utilization – Increasing walking and biking usage. Livability – Improving the quality of life for all Ohioans. Preservation – Ensuring critical existing infrastructure is in a state of good repair. The City of Gahanna is in the process of completing the Active Transportation Plan and expects to adopt by the end of 2024.

	State Capital Funding - Price Road House	American Rescue Plan Act - ARPA	Body Worn Camera - Office of Criminal Justice Services (OCJS)	IDEP/OTSO Grant
<b>Grant/Project Name</b>				
<b>Project description</b>	<p>In 2022, the Administration applied for outside funding through State Capital Grants to assist with renovating the Price Road House facility and was awarded \$100,000 for costs associated with the project. ODNR is a pass-through for the funds appropriated by House Bill No. 687. ODNR will retain \$2,000 of the appropriation to cover administrative costs. The City of Gahanna currently owns a property located at 94 Price Rd., also known as the Price Road House. Given the strategic location of this parcel and structure immediately adjacent to the Big Walnut Trail and related parkland, the Department of Parks &amp; Recreation will repurpose the facility into a recreation program center. The center would add much needed indoor programming and meeting space and allow the Department to expand educational opportunities.</p> <p>*The project was bid in 2023. Due to the significant increase of construction products and workforce increases, the project was delayed.</p>	<p>The ARPA receives Federal American Rescue Plan Act funds passed through the State. As a non-entitled unit of local government, the amount the City has received the first half or \$1.8 million in July 2021 and received the second half July 2022 for a total of \$3.6 million. Various changes have been made by the US Treasury to allow more flexibility for the use of these funds for non-entitled units of local government. Disbursements are basically required to be used for a proper general public service. The funding is intended to be used over a four-year period to boost recovery and provide assistance to those most impacted by COVID-19. These funds have been allocated for projects, such as the 2023 and 2024 Community Grant programs, Water Tower Rehabilitation, Computer-Aided Dispatch (CAD)</p>	<p>The Ohio Office of Criminal Justice Services Body Worn Camera grant provides the Division of Police funds to cover the cost of service maintenance agreements, software licenses, interfaces, and device warranties in order to operate the agencies body worn cameras. The grant covers expenditures that were incurred in 2023 and reimbursement from the grantor is expected in early 2024.</p>	<p>The Federal Highway Safety Act of 1966 directed the National Highway Traffic Safety Administration (NHTSA) and the Federal Highway Administration (FHWA) of the U.S. Department of Transportation to jointly administer various highway safety projects. This federal grant program provides federal funds administered through the Ohio Department of Public Safety (ODPS), Ohio State Highway Patrol (OSHP)/ Ohio Traffic Safety Office (OTSO) to eligible entities to be used in part for, but not limited to, traffic safety education, enforcement and awareness.</p>
