

NOT IN MY BACKYARD!

New Life Church is planning a cell phone tower to be built on their property - OUR BACKYARDS!

The proposed tower is 120 feet tall and will sit in the back parking lot (where the dumpster currently sits). The church will be paid by the cell phone company, profiting from the damage done to our neighborhood.

- **Increasing evidence of health risks**

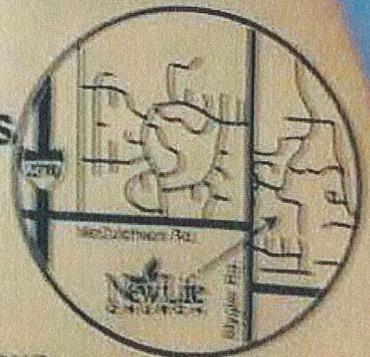

For you, your children and wildlife

- **Negatively impact home & property values**

Domino effect depressing home values

- **Neighborhood Eyesore**

The tower will be seen for miles, from all surrounding neighborhoods
