SCI Integrated Terms and Conditions

Services: All services for this Project are quoted on a fixed-fee basis. Unless otherwise noted in the pricing section of this proposal, services will be performed during normal business hours (defined as 8:00 a.m. to 6:00 p.m. local time). SCI recognizes two categories of work outside normal business hours. Weekday work performed before or after Normal Business Hours is considered After-Hours work and is subject to a pricing premium of 50%. Work performed on a weekend or an SCI-recognized holiday is considered Weekend work and is subject to a pricing premium of 100%. Orders not completed and services not rendered within 6 months of Purchase Order due to Customer delays may be subject to additional fees.

Payment Terms: A down payment of 50% of the total Order shall be invoiced upon acceptance of Customer's Purchase Order and is due upon receipt. The balance of the License Fees, Hardware Fees, Support Fees for the Initial Support Term and any fixed-fee Service Fees shall be invoiced upon delivery of same to Customer and shall be payable within 30 days of receipt. Minor issues or variances in System performance shall be handled through Seller's technical support department and shall not delay Customer's payment so long as these do not materially or adversely affect the performance of the System as a whole.

Warranty

All installations are covered by a 365-day warranty period, unless otherwise noted in the proposal. After the 365 days all service calls will be time and material at current published SCI-Integrated rates unless Customer is offered and accepts a maintenance and support contract.

Customer Responsibilities: At all times, Customer is responsible for all hardware, software and services required to establish the technical environment necessary to operate the products specified in this Project. Customer is also responsible for understanding the technology in this proposed solution and its effect on their network. This project covers integration with the Customer's existing environment supporting only the current, installed versions of software. If Customer upgrades software, Seller is not responsible for compatibility of the Project components with the upgraded software. Customer shall pay any charges associated with preparing the network. SCI shall not be responsible for performing any obligations associated with this quote unless and until SCI accepts an order from Customer for this Project. Hardware must be kept in clean, smoke-free environments with a controlled temperature of 50-100 degrees Fahrenheit (70 degrees is preferred). Relative humidity should be maintained at 20%-85% (non-condensing). Seller will not be held responsible for any damage due to deviations from these environmental parameters.

Customer understands that if any Customer responsibilities, as outlined above or identified later in the course of the Project, are not met prior to a scheduled onsite visit, Seller reserves the right to delay the visit until such time as these requirements are met. Upon completion of the deployment, Customer and Seller's technician shall test the System. If Seller is called back for service because Customer was unavailable, declined, or failed to test System during the deployment, Customer may incur additional fees.

Statement of Work Acceptance
