II. PHILOSOPHY

The Gahanna Department of Parks & Recreation is tasked with cost recovery goals in accordance with the City's annual budget allocation and financial conditions. To that end, the Department sets fees and charges in relation to these goals, market rate conditions, benchmarking, demand, cost recovery targets, and industry trends. The Department strives to improve quality of life and to offer the most efficient and professional services by:

- Providing and maintaining parks and recreation facilities for use by the general public.
- Providing equal opportunity for all residents to participate in recreational programs and to fully use the facilities of the department.
- Providing trained and qualified personnel for supervision and instruction in recreation programs, and for parks and facility maintenance.
- Welcoming public input into planning and evaluation of recreation programs, facilities, and services.

This level targets 50 - 85%+ recovery. Examples include but not limited to:

- Youth Athletic Programs
- Swim Lessons
- Day Camp

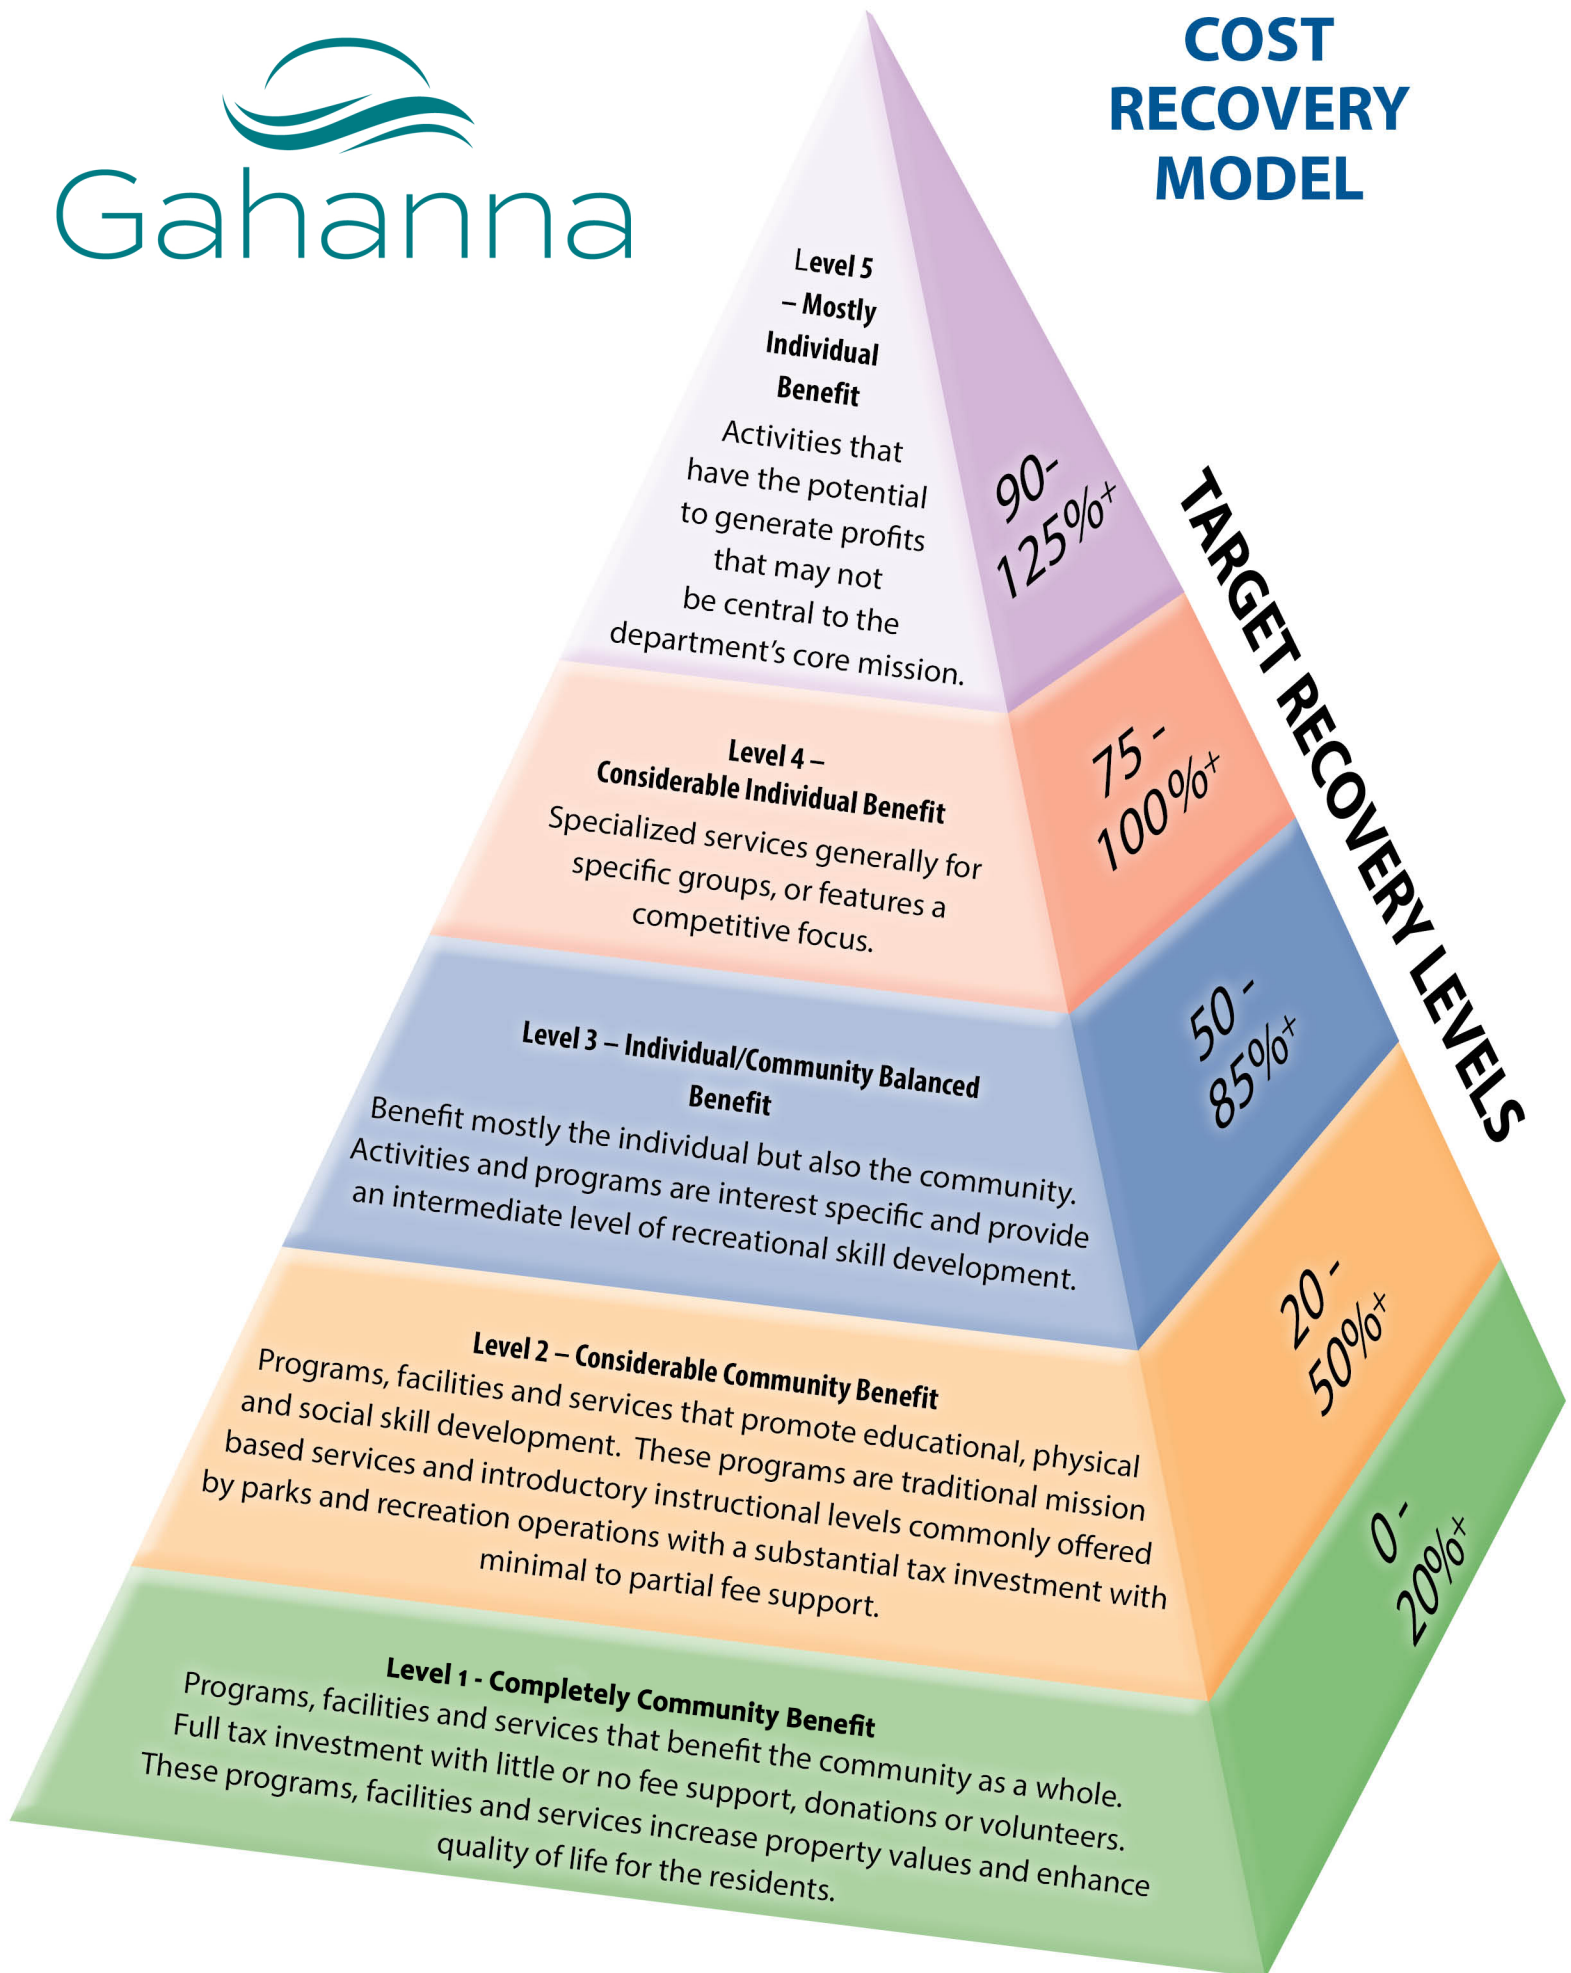

Level 4 – Considerable Individual Benefit. The fourth level represents specialized services generally for specific groups or features a competitive focus. This level targets 75 – 100%+ recovery. Examples include but not limited to:

- Private/semi-private lessons,
- Athletic field, court, and facility rentals
- Memberships and Daily Visits

Level 5 – Mostly Individual Benefit. The fifth level represents activities that have the potential to generate profits that may not be central to the department's core mission. This level targets 90 – 125%+ recovery. Examples include but not limited to:
