ACTION ITEM – 2014 CCTV & Sanitary Sewer Cleaning Project – Permission

to Bid: As part of our Capacity, Management, Operations and Maintenance (CMOM) program, we perform sewer maintenance techniques to keep the sewers clean and free flowing to minimize the chance for sanitary sewer backups to occur. One of these techniques is to clean and then camera sewer lines to ultimately inspect for defects which may need attention by grouting, pipe lining or manhole sealing. This project will be fully funded by the Sanitary Sewer Fund.

The 2014 clean and camera project includes the sewers located in the Gramercy Park, Rocky Fork Heights, Granville Heights South, and Clarman Heights subdivisions. The sewers in this area were constructed between the 1950's and 60's making them 50 to 60 years old. The project includes televising and cleaning 35,680 feet of pipe and inspecting 163 manholes.

We are respectfully requesting a motion resolution allowing us to formally bid this project. (RCA attached.)
