GAHANNA PARKS & RECREATION FOUNDATION

Highlights

The GPRF is a separate non-profit, 501C3 charitable organization

Established in 2008 to help improve the quality of parks and recreation services for a healthier Gahanna.

Since our inception, we have brought in more than \$300,000 through sponsorships, events and donations and have given back more than \$165,000 in scholarships, park improvements, public art, school collaborations, and more.

Mission & Background

Leading the community in partnership for parks and recreation, the Foundation is committed to conserving and improving the quality of Gahanna parks for current and future generations. Through our core focus on people, community, environment and legacy, we foster the needs of our citizens through accessible programs and high level services within human development, health and wellness, cultural unity and environmental resources. Our focus is on making Gahanna a great place to live, work and play.
