RE: Miller Residence, 4" under drain

Dear Karl,

Savko Construction Inc. will install a 4" tile starting just beyond the West side of the Miller's property and extending up through the existing swale and ending at the South edge of their property. At the end, we will install a "T" that will extend 10' to the East and 10' to the West. We will back fill the trench to the top with #57 aggregate, haul the dirt away and seed & mulch the areas that were disturbed along the edges of the trench. In order to complete this work, we would need to have access to the lane that we used during the construction of the East Industrial Sanitary Sewer Project. We would take down one section of fence and re-install to access the Miller's property.

Total Cost: \$ 2,389.00

If you have any questions, please feel free to call me at 614-451-2242

Thank You,
