## FINAL DEVELOPMENT PLAN APPLICATION - SUBMISSION REQUIREMENTS

PLEASE NOTE: This application is not to be considered complete until all documents are received and approved by the Planning & Zoning Administrator.

1. Review Gahanna Code Section 1108 (visit www.municode.com) & Chapter 914. Tree Requirements 2. Review the State of Ohio Fire Code Fire Service Requirements 3. Pre-application conference with staff FINAL DEVELOPMENT PLAN shall contain the following: 4. Scale: Minimum - one inch equals 100 feet. 5. The proposed name of the development, approximate total acreage, north arrow, and date 6. The names of any public and/or private streets adjacent to ar within the development 7. Names and addresses of owners, developers and the surveyor who designed the plan 8. Vicinity map showing relationship to surrounding development and its location within the community 9. Natural features currently within proposed development, including drainage channels, tree lines, bodies of water, and other significant features 110. Current zoning district, building and parking serbacks 111. Proposed location, size and height of building and/or structures 12. Proposed driveway dimensions and access points 13. Proposed parking and number of parking spaces 14. Distance between buildings 15. Any other information the Planning Commission may deem to be necessary to evaluate the application. These items can include such things as elevations, fraffic studies, floor plans, etc.  THE DEVELOPER SHALL SUBMIT A TABLE OF DEVELOPMENT CALCULATIONS. TABLE SHALL INCLUDE: 16. Parking calculations: (square footage of proposed buildings, number of spaces per square foot, number of spaces required, and actual number of spaces proposed) 17. Lot coverage calculations: (square footage of site, area of permanently impervious surfaces broken down into buildings and parking, area of uncovered land, coverage requirements, proposed lot coverage) 18. Setback calculations: (square footage of povement, proposed area of landscaping, square footage of landscaping, unmber of spaces prequirements, proposed of continuous property owners & their mailing address 21. Pre-printed mailing labels for all contiguous property owners 22. Application & all supporting documents submitted	STAFF			CANT	STAFF USE	
Requirements  2. Review the State of Ohio Fire Code Fire Service Requirements  3. Pre-application conference with staff  FINAL DEVELOPMENT PLAN shall contain the following:  4. ## **APPLICATION STAFF COMMENTS**

DUE: Wednesdays - 10 AM

**To SUBMIT:** File>SAVE AS ADOBE PDF with naming convention: "Staff Comments – YOURNAME" to: T:/Zoning/Applications IN PROGRESS/(the project folder)

Project/Property Address or Lo	cation: _1130 Morrison
Project Name/Business Name:	McNeilus Expansion
SUBMITTED BY: Name: Bonnie	Title: P&ZA
Department: Service	

The applicant seeks approval for a lot split, a Final Development Plan, and DR for this site.

SWP – 0.400 acres of property to be split from Lot 21 to be dedicated for public ROW

FDP – A 6,000 sq ft addition to the existing building is proposed. The addition meets all the setback requirements of the OCT code. 8 additional parking spaces are proposed including one handicapped space.

DR – The exterior building finishes will match those of the existing building. As the site is now compacted gravel (impervious surface per City Engineer), no new impervious surface is be added, thus the tree planting code does not apply to this site. Two trees are proposed at the front of the new addition.

## **APPLICATION STAFF COMMENTS**

DUE: Wednesdays - 10 AM

**To SUBMIT:** File>SAVE AS ADOBE PDF with naming convention: "Staff Comments – YOURNAME" to: T:/Zoning/Applications IN PROGRESS/(the project folder)

Project/Property Address or Location: <u>1130</u>	Morrison Road
Project Name/Business Name: McNeilus	
SUBMITTED BY: Name: Michael Blackford	Title: Deputy Director
Department: Planning and Development	

The applicant has proposed a 6,000 square foot building addition, 22 additional parking spaces, and a new loading area. One item to note is that the newly adopted Tree Preservation and Planting requirements of Chapter 914 do not apply to this request as it does not add any new impervious surface. The additions are located in the area of existing impervious, therefore, Chapter 914 does not apply.

#### Area/Land Use Plan

The subject property is not located within any subarea plan. It is located within the Industrial Future Land Use per the 2002 Land Use Plan. Objectives and Principles of the Industrial Land Use include but aren't limited to the following:

- Any industrial site should be developed in a safe manner with enhanced site design that is architecturally compatible with surrounding development.
- Permit those types of industries that will stabilize, enhance, and diversify the economic base.

#### 2015 Economic Development Strategy

The Strategy looked at current market conditions within the competitive market area (CMA) for industrial and found a low vacancy rate of 6.4% (the CMA includes properties inside and outside Gahanna). It also found that very little of the inventory has been constructed in the last ten years. This indicates that there is excellent potential for new industrial development. Based on existing market conditions, the Strategy states that the City can support 800,000 square feet of industrial space over the next ten years.

The project location is located within priority development area (PDA) #4. It is not a target site, therefore a specific plan of development was not identified. Generally, PDA #4 was identified as appropriate for industrial and similar uses.

#### **Design Review**

Applications for Design Review are subject to the following criteria:

- a) Are stylistically compatible with other new, renovated, and existing structures in the applicable Design Review District in order to maintain continuity and provide protection of existing design environment;
- b) Contribute to the improvement and upgrading of the architectural and design character of the Design Review District;
- c) Contribute to the continuing economic and community vitality of the Design Review District; and
- d) Maintain, protect and enhance the physical surroundings of the Design Review District.

Properties that are zoned Office, Commerce, and Technology (OCT) are subject to the design standards of Design Review District-4 (DRD-4). Relevant standards of DRD-4 are as follows:

- a) Adequate walkways and landscaped islands should be distributed throughout the development. These should emphasize the use of perimeter and central landscape features and easily observe patterns of circulation.
- b) Integration of natural screening elements should be used to maximize visual interest and foster a natural relationship between the development and the land.
- c) In order to protect land values of adjoining parcels, explicit materials, colors, styles, etc. should be established to control development.

In addition to the standards of DRD-4, OCT has specific standards for design. Relevant standards of OCT are as follows:

- a) Exterior materials for industrial uses are brick, jumbo brick, stone or simulated stone, architectural pre-cast concrete, EIFS, split faced concrete block, and architectural metal panels of high quality with a rust free long lasting finish.
- b) The main façade of all buildings shall be designed to enhance the visual appeal of the district.
- c) Windows shall be incorporated as practical.

The application does not contain a materials list so it is difficult to determine compliance with the applicable standards. Additionally, it is Planning and Development staff's opinion that the renderings do not meet some of the objectives of the district, specifically enhancement of the district through visual appeal and the use of windows as practical. Staff recommends that the building incorporate additional materials and/or windows to add visual appeal.

It should be noted that the surrounding area contains a mix of industrial activities. Existing buildings on our adjacent to the subject property were constructed in the late '70s/early '80s. It appears that they were constructed emphasizing function over form.

#### Final Development Plan

A Final Development Plan (FDP) shall conform to all zoning requirements and conform to the goals and objectives established in the City's approved Land Use Plan, or other applicable studies. Planning Commission shall approve an application for FDP if the following four conditions are met:

- a) The proposed development meets the applicable development standards of the zoning ordinance.
- b) The proposed development is in accord with appropriate plans for the area.
- c) The proposed development would not have undesirable effects on the surrounding area.
- d) The proposed development would be in keeping with the existing land use character and physical development potential of the area.

Planning and Development staff believes that the proposed request is consistent with the requirements for approval.

## **APPLICATION STAFF COMMENTS**

DUE: Wednesdays - 10 AM

**To SUBMIT:** File>SAVE AS ADOBE PDF with naming convention: "Staff Comments – YOURNAME" to: <u>T:/Zoning/Applications IN PROGRESS/(the project folder)</u>

Project/Property Address or Location: 1130 Morrison Road							
Project Name/Business Name: McNeilus Truck Manufacturing, Inc.							
SUBMITTED BY: Name: Robert S. Priestas	Title: City Engineer						
Department: Public Service and Engineering							

## **Final Development Plan Application**

## **General Comments**

 A formal final engineering plan review will be performed following approval of the Final Development Plan, or concurrently with the FDP process if requested by the Developer at their risk.

#### Site Access

- The site access for this project will be via the existing access drive from Morrison Road, and a new proposed access from Bricklawn Avenue.
- It is unexpected that this development will exceed 100 trips in the peak hour, and thus most likely
  will not require a Traffic Impact Study. The owner or developer shall provide sufficient
  information to confirm the vehicle end trips generated by this development in the peak hour.
- A cross access easement should be dedicated for the access drive from Morrison Road in the event that the remaining parcels transfer ownership.
- Can the width of the new approach be reduced at the edge of pavement for Bricklawn Avenue.

## Sanitary Sewer

No new taps are expected for this project.

#### Water Service

No new taps are expected for this project.

## Stormwater Management

- Detention and water quality treatment design to be per City of Gahanna standards, Codified Ordinances Chapter 1193.
- We recommend that consideration be given to incorporating green infrastructure best management practices (BMP's) for any proposed detention and water quality measures.
- Erosion Control design and Post Construction Runoff Control to be per City of Gahanna (Chapter 1195) and Franklin Soil and Water Conservation District requirements.

## **Subdivision Without Plat Application**

#### General

- The legal description and exhibit shall be signed and stamped by a registered professional surveyor.
- The legal description and exhibit shall be pre-approved by Franklin County.

For SI: 1 square foot = 0.0929 m<sup>2</sup>, 1 gallon per minute = 3.785 L/m, 1 pound per square inch = 6.895 kPa.

5. This will require a minimum of three fire hydrants for the property to achieve this flow, based on Table C105.1 of the Ohio Fire Code. There are two on Old Morrison Road and one on Levitt Service Road that are within the road frontage requirements. Hydrant coverage should be ok.

TABLE C 105.1

#### NUMBER AND DISTRIBUTION OF FIRE HYDRANTS

FIRE-FLOW REQUIREMENT (gpm)	MINIMUM NUMBER OF HYDRANTS	AVERAGE SPACING BETWEEN HYDRANTS <sup>a,b,c</sup> (feet)	MAXIMUM DISTANCE FROM ANY POINT ON STREET OR ROAD FRONTAGE TO A HYDRANT <sup>d</sup>
1,750 or less	1	500	250
2,000 - 2,250	2	450	<mark>225</mark>
2,500	3	450	225
3,000	3	400	225
3,500 - 4,000	4	350	210
4,500 - 5,000	5	300	180
5,500	6	300	180
6,000	6	250	150
6,500 - 7,000	7	250	150
7,500 or more	8 or more <sup>e</sup>	200	120

For SI: 1 foot = 304.8 mm, 1 gallon per minute = 3.785 L/m

- a. Reduce by 100 feet for dead-end streets or roads
- b. Where streets are provided with median dividers which can be crossed by firefighters pulling hose lines, or where arterial streets are provided with four or more traffic lanes and have a traffic count of more than 30,000 vehicles per day, hydrant spacing shall average 500 feet- on each side of the street and be arranged on an alternating basis up to a fire-flow requirement of 7,000 gallons per minute and 400 feet for higher fire-flow requirements.
- c. Where new water mains are extended along streets where hydrants are not needed for protection of structures or similar fire problems, fire hydrants shall be provided at spacing not to exceed 1,000 feet to provide for transportation hazards.
- d. Reduce by 50 feet for dead-end streets or roads.
- e. One hydrant for each 1,000 gallons per minute or fraction thereof.

a. The minimum required fire flow shall be permitted to be reduced by 25 percent for Use Group R.

b. Types of construction are based on the International Building Code.

c.Measured at 20 psi.

Additional requirements and comments could for review process starts	llow after plans are submitted and the
