Re: **Property Line/Alley Location Survey &
Replacement of Property Corners**
Clark Street & Oklahoma Avenue Area

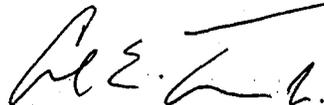

Dear Tom:

Thank you for the opportunity to submit the following proposal for surveying services for the above referenced location.

In accordance with our telephone conversation we hereby offer to conduct a survey of the outer boundaries of the "Dickerson's Addition," "Hanna Addition," and "Selvey Subdivision," in a manner sufficient to address the width and location of the east/west alley lying south of Lots 89, 106 and 107, and replace property corners destroyed during the reconstruction Clark Street and Oklahoma Avenue. Our estimated fee for this work is ten thousand, five hundred dollars (\$10,500). This breaks down to fifty-two hundred fifty dollars (\$5250) to address the property line/alley location issue, and fifty-two hundred fifty dollars (\$5250) to replace front corner pins on the 34 lots affected by the reconstruction. We are prepared to begin work upon your acceptance of this proposal.

Again, thank you for your consideration of our firm for this project. Should you have any questions or comments, please feel free to contact me.

Respectfully submitted,
Terra Surveying Services LLC

Carl E. Turner Jr.,
Professional Surveyor
