Gahanna, Ohio 43032

Re: **Proposal for Engineering Services**
Hermitage & Leavitt Roads
Improvement #833

Dear Mr. Wetherholt:

Per your request, we are pleased to submit our proposal to provide engineering services for the design, preparation of construction documents, general construction engineering, resident project representation, and material testing for the reconstruction of Hermitage Road, Leavitt Road, and a portion of Mistletoe Court.

The reconstruction of Leavitt Road, part of Mistletoe Court, and the joint repairs on Xavier Street have been added to plans previously prepared for the reconstruction of Hermitage Road. Engineering services for the design, preparation of construction plans, and documents for adding these improvements to the plans cost a total lump sum of \$10,500.

The cost of engineering services during construction of the total project shall not exceed \$49,600 for a construction period of 15 weeks. Engineering services during construction will be invoiced based upon payroll costs for the actual discipline hours expended on the project, times a multiplier of 2.10, plus material testing costs times a factor of 1.10, and reimbursable expenses.

We appreciate the opportunity to submit this proposal and should you have any questions or need additional information, please call us.

Sincerely,

STILSON CONSULTING GROUP, LLC

William E. Stilson, P.E.
President
