**G. ORDINANCES FOR EMERGENCY ADOPTION:**

1. [ORD-0060-2021](#) AN ORDINANCE TO ADOPT A MORATORIUM ON APPLICATIONS FOR, AND THE GRANTING OF BUILDING PERMITS AND CERTIFICATES OF OCCUPANCY FOR ANY BUILDING, STRUCTURE, USE OR CHANGE OF USE THAT WOULD ENABLE THE CULTIVATION, PROCESSING, DISTRIBUTION OR SALE OF MEDICAL MARIJUANA FOR A PERIOD NOT TO EXCEED ONE YEAR; AND TO DECLARE AN EMERGENCY.

Bowers stated the following:

We have had great discussions on this topic over the last several weeks. I am grateful to attorney Lloyd Pierre-Louis, an attorney whose practice is focused in government affairs and administrative law and particularly the legal cannabis and hemp industries, for speaking with us about the regulatory framework experienced by his clients in the medical marijuana and particularly dispensary industry.

In 2016, the State of Ohio passed laws to regulate the industry of medical marijuana and permit its operations. In the 5 years since, our neighboring communities have not reported significant concerns with

these businesses operating in their communities and the State has recently expanded the number of licenses for dispensaries. In 2018, Gahanna passed a 1 year moratorium to prevent the opening of dispensaries and claimed that research and information gathering would occur during the moratorium. Once that moratorium lapsed, the issue was effectively moot because more dispensary licenses were not available - until earlier this year.

As discussed, this is a highly regulated industry with many checkpoints to ensure public safety. The licensees are motivated to maintain their licenses and protect their investments, coupled with State requirements and heavy regulation and oversight. It appears from the lack of negative reporting, the State's actions to expand licenses, and other communities' acceptance of these businesses that the regulatory scheme is working as intended.

As with all consumer facing businesses, some are set up in locations that are less than ideal for traffic flow - whether it's an ice cream shop with the best Whitsers or the new brewery with a special theme night, parking and traffic flow can impact any business. We are a resilient and business-ready community, though, that can and should adapt with and seek to reasonably accommodate small businesses that drive jobs and serve our residents.

As discussed earlier in this process, the timeline from licensure to doors opening spans 9 months or more. With applicants submitting to the State this month, they may qualify for provisional licenses in January. They then have 270 days to meet State regulations to open doors. This builds in an extended timeline for us to review appropriate local ordinances such as the notice requirement or private security detail obligations that may be appropriate to set "guardrails"

Ultimately, though it's tempting to phrase this as just "extending time" - this really does have the impact of effectively barring dispensaries. Because the licensing window will pass while this is in effect, if passed, this moratorium will have the effect of prohibiting medical marijuana businesses in this round of licensing.

I am opposed to a moratorium in any respect because 1) medical marijuana businesses do not pose a significant risk to safety; 2) medical marijuana businesses create jobs and have a positive economic impact; and 3) they provide an important treatment that can reduce ailments of certain medical conditions.

Schnetzer stated that his thoughts should not be interpreted as being for

or against the concept of medical marijuana; it is in direct response to the Administration's request that they be allowed time to perform the requisite due diligence to look at the zoning code and to make sure that any of these uses are consistent with the community; would not be in favor of changing because it would seem the administration would review all of the above processes; does not want to support one or the other without allowing time for due diligence.

**A motion was made by Bowers, seconded by Renner, that the Ordinance be Adopted as Amended:**

**Section 2. That this Council establishes a moratorium on the acceptance of any application for, or the granting of, any Building Permits or Certificates of Occupancy for any building, structure, use, expansion of use, or change of use that would enable the [STRIKE: cultivation, processing, distribution, or] retail sale or dispensing of medical marijuana in the City of Gahanna for a period of one year from the date of adoption of this Ordinance by the Council.**

**Section 3. That no existing business in the City of Gahanna may expand in any way that would establish the [STRIKE: cultivation, processing, distribution or] retail sale or dispensing of medical marijuana for the duration of the moratorium period established hereby.**

**The motion failed by the following vote:**

**Yes:** 3 - Renner, McGregor and Bowers

**No:** 3 - Schnetzer, Larick and Angelou

**Absent:** 1 - Leeseberg

Renner stated that he recalled the City Attorney mentioning that "testing" should be added to mirror the Ohio Revised Code language. Bowers stated that she is surprised that we're going in the opposite direction, especially since laboratory testing would be science-based, high paying jobs to this region if pursued.

**A motion was made by Renner, seconded by McGregor, that the Ordinance be Amended, to include "laboratory testing."**

**Yes:** 5 - Renner, Schnetzer, Larick, McGregor and Angelou

**No:** 1 - Bowers

**Absent:** 1 - Leeseberg

Angelou stated that she would hope there would be enough time within the first few months, to try to not go beyond six months to review; would hope that's enough time for the administration to research. Schnetzer reiterated his earlier comments.
