Subject: ORD-0060-2021

Colleagues,

I let President Larick know that I may not be at Council tonight due to a work deadline.

I wanted to share my thoughts on ORD-0060-2021 via email in case I can't make the meeting.

Asking for an emergency on this ordinance will take away the community's ability to referendum this ordinance. I have heard from several constituents that they oppose rushing this through in the manner proposed. We've already approved a six month moratorium once on this topic and no legislative action was taken. We are now being asked for a one year moratorium. When Councilwoman Bowers asked for a schedule and deliverables the administration stated that nothing will be done on the topic for the first 3-6 months.

Given this information I don't believe this meets the spirit or the Code for passing this by emergency.

Thank you for your consideration,

Jamie
Gahanna City Council, Ward 4
