RECOMMENDATION: Introduction, back to Committee of the Whole.

PENDING LEGISLATION: Director of Development

2. [ORD-0091-2016](#) TO REZONE 2.55+/- ACRES OF PROPERTY AS LIMITED OVERLAY SUBURBAN OFFICE (L-SO); SAID PROPERTY LOCATED AT 5495, 5511, AND 5505 MORSE ROAD; PARCEL ID NO. 025-011235, 025-011236, 025-011239; CURRENT ZONING NEIGHBORHOOD COMMERCIAL (NC); SPECTRUM ACQUISITION GAHANNA; LLC, DAVID HODGE, APPLICANT.

Jones said there was a request at the last Council meeting to bring this back; David Hodge, attorney, is here, with other members from Spectrum; (passed out attached document); Hodge thanked Council for their willingness to continue to consider this rezoning request; important to keep in mind that this zoning package did come in pieces; is for the greater Spectrum whole; they are creating new jobs; said Spectrum believes these cottages maximize the overall success of the development; said there is a TIF on the property; this will result in \$40,000 into the TIF over a 30 year term; the frontage is on Morse Road; the developability has some challenges; the buildable footprint, there are some limitations; this went to Planning Commission with no neighbor concerns; was a unanimous recommendation for approval from Planning Commission; the plans of the City all support this type of development; this is truly to be used with the Three Creeks site; one issue was the limitation text; we thought it was important to say they could only be used in conjunction with Three Creeks; it went too far; willing to do what the City wants in the limitation text; believe this proposed development fits; hopes those not in support can take fresh look and come to another conclusion; all here to answer any questions; Jones said the property is in a TIF district; will be the primary revenue generated; would be a significant property tax generator; payroll is lower but this is a smaller footprint for development; Larick asked about the \$40K number; Hodge said was provided to him by Spectrum; Larick asked if we pay the township or schools; Jones said we would not owe anything to them; Schnetzer distributed a handout (see attached); looked at the numbers; Gahanna

has slipped in the numbers; reviewed the document with Council and explained the numbers; what is being proposed is more housing; appreciates the information Hodge provided; anything that goes in there will generate a similar TIF amount; income tax revenue is big; believes another office space with higher payrolls would be best suited; most of our general fund is from income tax revenue; cannot, as a community, afford to not maximize the developable land in the City suitable for suburban office; does not believe the project is a good fit; believes there is something else that goes there; Leeseberg asked Spectrum how 8 housing units impact the bottom line; Mike Longfellow thanked Council for the reconsideration; one thing that has contributed to Spectrum's success is location and where they go; Gahanna was the very first market they looked into in Columbus; not all senior living facilities are created equal and they do not market the same way; have seen an increase in those looking for a cottage environment; believes Three Creeks will be very successful; is a beautiful facility; investing 40 million dollars in Gahanna; they are owners, operators, and developers; there is a small footprint of buildable land; this benefits Three Creeks Senior Living; Larick asked where they have facilities in Columbus; Longfellow said in Hilliard now, also under construction in Pickerington, and moving toward construction in Westerville; saw a big market in central Ohio; Leeseberg asked the number of beds in the main building; Longfellow said about 160; Leeseberg asked what impact 16 people in 8 cottages will have; Longfellow said the main building will be successful; seniors often have a hesitation in moving into a multi-tenant building; the cottage is transitional; Leeseberg said the sanitary sewer is proposed for this regional project; not good for the City; understands the need for the project; does not believe it is good use for the property; Schnetzer said we care about the demographics of the City; Angelou pointed out that insight2050 said our entire demographics will change; there will be a need for this type of facility; asked if the cottages will be rented out; asked about those being built in Columbus, will they have the same look; Longfellow said they do not have cottages planned for those; that is trending right now; have several under construction right now that include cottages; said meals, housekeeping, laundry, etc. are included with the cottages; McGregor asked if the payroll changes if this project is not approved; Longfellow said it is minor; McGregor said sees a lot of turnover in senior living facilities in the ownership; Longfellow said they have sold one property with unique circumstances; they are privately held; owner-operators; we are growing very deliberately; very selective in our search for a location; Angelou asked if they will have staff in the cottages on a regular basis that will bring income tax; Longfellow said they will go into the cottages; Angelou asked if it will bring in more staff; Longfellow said maybe 4-5 additional staff members due to these cottages; Schnetzer said his view is that Gahanna should be self-determined community;

feels single family is the highest and best use; clearly there is a need for senior living right now; Metzbower asked what efforts have gone into using this property as a medical facility and other developments; how long did they work on a plan for that parcel of land; Dick Roggenkamp said they have had this property on the market for the last 5-6 years; the Spectrum deal was developed in 2014; they are balancing the ground at 62 and Morse Road for office and retail uses; the market however has been telling us something different than office; closest they have come to office development was with a dialysis facility that ended up in a different location in Gahanna; have had some interest of medical users around that property; said the market shows that medical facilities want to be closer to other medical facilities; are marketing the balance of the property; Metzbower asked if this facility will be a stronger anchor than offices; Roggenkamp said potentially; said the small acreage is deceiving; butts up to a right-of-way; said some of that will be dedicated to the City in the project; buildable site is smaller with the setback.

RECOMMENDATION: Regular Agenda.
