Re: Dept. of Engineering – Request for Council Action (December 11, 2023 COTW Meeting)

ACTION ITEMS

ACTION ITEM #1: TAYLOR STATION /CRAYCRAFT ROUNDABOUT IMPROVEMENT – PERMISSION TO BID

The intersection at Taylor Station Road and Claycraft Road was assessed in 2017 and was found to be operating at a Level of Service E. This intersection experiences significant congestion and traffic delays throughout the day. In 2020, professional engineering design services to replace the signalized intersection with a modern-day roundabout commenced. The City has completed the design and is finalizing right of way settlements, and utility relocations have begun. The engineer's estimate of probable cost to construct the roundabout is \$2.15M, with \$1.5M already appropriated for the project. This project is expected to be substantially completed within nine (9) months from the notice to proceed.

The Administration respectfully requests permission to bid the Taylor Station/Claycraft Intersection Improvements project.

Requested Legislation and Funding

Legislation Needed:	Motion
Emergency/Waiver:	N/A
Vendor Name:	N/A
Vendor Address:	N/A
Already Appropriated (Amounts & Accounts):	N/A
