Subject: Three Creeks Senior Living Cottages - Landscape Plan (914.05)

Bonnie,

Per our discussion today, please find below the required tree calculations to meet code 914.05. The trees are provided throughout the site development area. This calculation does not include the trees being provided to meet the Street Tree (913.1) or Interior Landscaping (1163.08) requirements.

914.05 – Minimum Trees Required

(1.) 1 shade tree caliper inch per 1,000 sf of impervious surface
Required: $37,047\text{sf}/1,000\text{sf} = 38''$ caliper inches
Provided: 62.5" (achieved by 25 trees at 2.5" caliper)

If you have any questions or require additional information, please do not hesitate to contact me directly. Have a great day!
