Re: Audible Pedestrian Crossings at Imperial and Agler

Dear Sir:

We propose to furnish all labor and material in order to provide audible pedestrian crossings for the East Side and North side crosswalks at Imperial Drive and Agler Road in Gahanna Ohio.

In accordance with the current "Ohio manual on uniform traffic control devices" your present style audible signals are not in compliance.

We are proposing the Polara navigator audible pushbuttons, which conform with the new state and federal regulations. We are also recommending that in lieu of the "chirp" and "cuckoo" the new audible buttons be programmed with the street names.

There is a locator tone low frequency beep from each button. When the button with raised arrow is pushed, it says "crossing for Agler and Imperial" When walk interval is on, it says "walk for Agler (or Imperial)". Catalog cuts are enclosed.

Total contract price for four pushbutton factory programmed and installed at two of the crosswalks (East and North), is \$3,800.00.

Sincerely yours

James J. Howard
Vice President

If accepted, please sign and return one copy with your purchase order.
