G. NEW BUSINESS**i. 2021 Budget Request**

Ferrell shared the departments 2021 budget request that went to Council. Ferrell explained that several positions went unfilled in 2020 due to the closures and uncertainty of the health pandemic. We are requesting those positions to be filled for 2021. Other staffing request are for a full-time horticulturist, and facility maintenance coordinator (pool technician). The pool technician was funded in 2020. The Parks division has 14 part-time vacancies; instead of filling those part-time vacancies we are requesting to transition to four (4) full-time parks staff. There will be a savings of over \$6,000 per year.

Recreation Services is budgeted out of the Special Revenue Fund, Parks is out of the General Fund. For 2021 the Golf Course is budgeted out of the Special Revenue Fund. Simmons requested the projections for the Special Fund for Parks & Recreation. Ferrell stated there is an estimate for the city as a whole and not specifically for Parks & Recreation. Ferrell will provide the information to the Board.

Simmons wants to make sure that all the expenses for Parks & Recreation aren't only coming out of the special revenue fund. Simmons asked if the department is still receiving money from the general fund for capital improvements and operating expenses. Ferrell shared that the capital improvement dollars are from a separate fund than operational costs. The capital improvement funds are coming from the additional 75% of the income tax that was passed. Simmons wants to make sure that the department is receiving its fair share of capital improvement funds. Ross asked if when comparing this year's budget to last year's budget the department is seeing the benefits of the levy money. Ferrell

shared that the department is seeing a benefit of the levy money. The full benefit due to the impact of COVID and the loss of jobs will not be seen this year. Simmons just wants to give back to the community. The community has been very vocal regarding the swimming pools. The splash pad has been a hot topic in the community. It would be a big draw to get people buying memberships and coming back to our pools instead of going to other communities.

Ferrell shared that at the last Finance Committee meeting Council had some questions about the Capital Improvement requests from the department. Big Walnut Trail, Section 8; ODOT is planning on rebuilding the bridge on Hamilton Road over I-270; this is part of the alignment for the trail. It makes sense to pair those projects together for overall funding. Also, the question was raised if the splash pad aligns with the plan for the Southwest Flood Plain Park and development. Ferrell shared there are only concept plans for the park development. No final decisions on the plan have been made, however the pools will remain a part of the park. Adding a splash pad to the park is a sustainable option to increase and improve the amenities of the pools. The last question from Council was regarding the plans for the Price Rd. house once it is renovated. Ferrell shared that the space will be used to increase our multi-generational programming and an added rental space for the community.

I. DIRECTOR'S REPORT

Ferrell shared the attached Director's Report with the Board. We are

very fortunate that Ashford on Broad continues to be a great sponsor for the weekly senior meals. Supporting Gahanna Together Day received a third place award with Ohio Parks & Recreation Association.

Miller asked what the damages to the parks were. Ferrell shared that at McCorkle Park, the sinks were completely torn off the walls. Parks staff were able to replace the sinks. At Sunpoint Park the toilets continue to be vandalized with rocks, and branches. There was a three (3) foot branch in the line, a plumber had to be hired to clear the line. Ferrell stated that staff is working with IT to install cameras.
