PROPOSED USE

The proposed site is to be used as a material storage, processing and recycling facility. The office space is in support of these operations. The outside storage areas are will be used for storing aggregates, concrete, asphalt, soil etc.

The site is located in the Gahanna Industrial Park. The outside storage areas for materials are located on top of a closed construction and demolition landfill. Future development of such an area is more expensive than surrounding alternatives. As such the proposed use is a good use for this site and provides jobs and tax revue for the community.

The adjacent property owners are all zoned office, commerce and technology (OCT) and proposed land use will have minimal impacts to adjacent property owners.

EXHIBIT "A"

Situated in the State of Ohio, County of Franklin, City of Gahanna, being in Section 3, Township 1 North, Range 16 West, United Military Lands, also being part of Reserve "D" of the "INDUSTRIAL ZONE" as shown and delineated upon the recorded plat thereof in Plat Book 54, Pages 84 thru 90, Recorder's Office, Franklin County, Ohio being more particularly described as follows:

Being all of the above referenced Reserve "D" of the "THE INDUSTRIAL ZONE" (being 29.623 acres) excepting out the following three parcels of land shown of record in the Franklin County Recorder's Office, Franklin County, Ohio:

Situate in the State of Ohio, County of Franklin, City of Gahanna, being in Section 3, Township 1 North, Range 16 West, United States Military Lands and being Part Reserve "D" as shown on "THE INDUSTRIAL ZONE" of record in Plat Book 56, Pages 86 thru 90, inclusive, also known as the original 40 acres (First Tract) conveyed to the Columbus Clay Manufacturing Company of record in Deed Book 459, Page 577, records of the Recorder's Office, Franklin County, Ohio, and being more particularly described as follows:

PART ONE

Beginning at a point in the westerly line of the aforesaid "THE INDUSTRIAL ZONE" at the northwesterly corner of said Reserve "D" and the southerly line of the Railroad Utility easement shown on said Plat, said point being located SOUTH, a distance of 596.63 feet from a point in the southerly line of Claycraft Road (60 feet in width) at the northwesterly corner of Lot Number 13 of said "THE INDUSTRIAL ZONE" plat;

Thence the following five (5) courses and distances along the northerly line of aforesaid Reserve "D":

1) Thence along a curve to the right having a radius of 521.31 feet, a central angle of $18^{\circ} 22' 24''$, the chord to which bears $S 65^{\circ} 22' 00'' E$, a distance of 166.46 feet to a point of reverse curvature;

2) Thence continuing along a curve to the left having a radius of 445.00 feet, a central angle of $27^{\circ} 36' 45''$, the chord to which bears $S 69^{\circ} 59' 13'' E$, a distance of 212.39 feet to a point;

3) Thence $N 6^{\circ} 12' 25'' E$, a distance of 15.00 feet to a point on a curve;

4) Thence along a curve to the left having a radius of 430.00 feet, a central angle of $16^{\circ} 24' 01''$, the chord to which bears $S 88^{\circ} 59' 36'' E$, a distance of 77.95 feet to a point of tangency;

5) Thence $N 85^{\circ} 48' 24'' E$, a distance of 146.56 feet to a point on a curve to the northerly line of a 3.564 acre tract (Parcel No. 3) conveyed to the City of Gahanna of record in Deed Book 3666, Page 43;

Thence along a northerly line of the aforesaid 3.564 acre tract with a curve to the left having a radius of 405.00 feet, a central angle of $4^{\circ} 27' 04''$, the chord to which bears $S 54^{\circ} 25' 02'' W$, a distance of 45.58 feet to a corner of said 3.564 acre tract;

Thence $S 18^{\circ} 48' 30'' E$, a distance of 7.41 feet, along a westerly line of aforesaid 3.564 acre tract;

Thence the following five (5) courses and distances across the aforesaid Reserve "D":

1) Thence $S 85^{\circ} 49' 24'' W$, a distance of 9.03 feet to an angle point;

2) Thence $S 78^{\circ} 39' 14'' W$, a distance of 137.19 feet to a point of curvature;

3) Thence along a curve to the right having a radius of 460.00 feet, a central angle of $39^{\circ} 14' 29''$, the chord to which bears $N 1^{\circ} 29' 47'' W$, a distance of 308.16 feet, to a point of tangency;

RE: Project 0 Leavitt Service Rd, 1041 Enterprise Dr, 960 Bricklawn Ave
Conditional Use Comments

Dear Geiger Excavating Inc:

The following comments were generated from the review of the submitted plans and documents for the referenced project. For the next submittal, please provide a disposition of comments, revised plans, and/or other information as requested for further review. The disposition of comments needs to include both the original comment and the appropriate response. If desired, these comments can be emailed. Re-submitted plans that do not include the disposition of comments document will not be reviewed and will be returned to you.

Building

1. Any structures will be required to comply with the Ohio Building Code, including accessibility. Building permits will be required for structures, and accessible parking provided.

Public Safety

2. No comments or concerns from the police department.

Parks

3. I think this will be a great improvement of the site

Community Development

4. Please see forthcoming staff report for comments related to the conditional use and the related applications.

Fire District

5. The above listed plan complies with the Section 503 of the 2017 Ohio Fire Code. The fire apparatus access roadway is 24 feet wide in acceptable locations. The width is adequate if the height of the building is under 30 feet. The roadway increases to 26 feet if the height is over 30 feet. There is one existing hydrant and what appears to be one proposed hydrant. The fire flow for the building is 2,250 GPM if it is V B construction. The hydrants shall provide a fire flow of approximately

PLANNING AND DEVELOPMENT STAFF REPORT

Request Summary

The applicant requests Conditional Use (CU), Final Development Plan (FDP), Design Review (DR), and Variance application approval in order to continue the recycling operations ongoing at the subject property. The property has been subject to a number of conditional use requests over the last eight years in order to cap the landfill. Previous requests differ from this request as this request is to permit the recycling operations on a permanent, rather than temporary, basis.

If the applications are approved by Planning Commission, there will be minimal changes to the site since it operates in a similar fashion today. The addition of a 7,425 square foot building and staff's recommendation to eliminate access onto Enterprise Drive would be the most notable changes to the site. City staff strongly urge the elimination of access onto Enterprise as we are aware of dust complaints from neighboring property owners. Elimination of access onto Enterprise should substantially reduce adverse effects of the operations onsite.

Conditional Use

The main activities occurring onsite are for the outdoor storage of materials. Outdoor storage is only permissible by conditional use within the Office, Commerce, and Technology (OCT) zone district. The site has had a number of similar requests approved in recent years, however, these approvals were

always on a temporary basis. Approvals were usually good for up to two years. This request is to allow the use on a permanent basis, therefore there is no timeframe associated with this request. However, permanent improvements are required such as paved drives and landscaping.

Requests for a conditional use shall be approved if the following four conditions are met:

1. The proposed use is a conditional use of the zoning district and the applicable development standards established in this zoning ordinance are met.
2. The proposed development is in accord with the appropriate plans for the area.
3. The proposed development will not have undesirable effects on the surrounding area.
4. The proposed development will be in keeping with the existing land use character and physical development potential of the area.

It is staff's opinion that the request meets the four conditions of approval and therefore recommends approval of the request. Staff recommends that the conditional use specify that Enterprise Drive may only be used for emergency access purposes. This will allow fire and emergency vehicles to use the access if necessary but not everyday traffic. This condition should help minimize dust from impacting adjacent properties.

Final Development Plan

Planning Commission shall approve an FDP application if the following four conditions are met:

- A. The proposed development meets the applicable development standards of this Zoning Ordinance.
- B. The proposed development is in accord with appropriate plans for the area.
- C. The proposed development would not have undesirable effects on the surrounding area.
- D. The proposed development would be in keeping with the existing land use character and physical development potential of the area.

Design Review

The property is zoned OCT and therefore subject to the standards of Design Review District 4 (DRD-4). Relevant standards include the following:

- Parking areas shall accommodate employees and not degrade the appearance of the development and the general area.
- Access shall be limited in number.
- Building materials are important to protect property values but a more liberal standard should be applied to OCT.

Variance

Three variances are necessary in order to approve the FDP application as submitted.

1. Chapter 1155.07(b)(1) – Height of outside storage areas are limited to ten feet. The applicant is requesting a maximum height of 25'. This height is consistent with how the site has been operating the last ten or so years.
2. Chapter 1155.07(c)(1) – Outdoor storage of materials shall be screened from view from the public right-of-way or adjacent properties by the use of a wall, fence, mounding, plant materials or combination thereof.
3. Chapter 1163.05(a) – All parking areas including spaces, drives, and aisles shall be hard surfaces such as cement or concrete. The applicant proposes to have gravel drives within the outside storage areas. The site currently functions with gravel drives. Staff has visited the site and has observed a substantial amount of dust coming from the gravel drives. Staff recommends any motion to approve include the dust control measures provided by the applicant.

Planning Commission shall not grant a variance unless it finds that all of the following conditions apply:

- a) There are special circumstances or conditions applying to the land, building or use referred to in the application.
- b) The granting of the variance is necessary for the preservation and enjoyment of substantial property rights.
- c) The granting of the application will not materially affect adversely the health or safety of persons residing or working in the neighborhood of the proposed use and will not be materially detrimental to the public welfare or injurious to property or improvements in such neighborhood.

Staff understands the need for the three variances. It would appear unfeasible to fully screen storage piles if they are granted permission to be 25'. The site has a large number of pine trees that were recently planted as part of the BZBA approval that provide a fair amount of screening. Staff believes that the provided dust control measures will help lessen any offsite impact to surrounding properties but we also believe that closing the access to Enterprise is important. These two measures should substantially reduce the effects of dust from the property and therefore don't object to granting the variance.

Area Commission

The request was discussed at the May 3rd Area Commission meeting. Attached to the report is feedback from the area commission meeting. Please note that Area Commission feedback is non-binding.

Recommendation

It is Planning and Development staff's opinion that the requested applications are generally consistent with the development potential of the property and applicable area plans. Staff does have concerns about dust that has been generated from the site. The City is aware that adjacent properties have complained about the impact of the project to their operation. Staff has been to the area and observed the situation. It appears that a majority of dust is being generated from trucks entering and exiting the

site via Enterprise Drive. Internal drives, which are gravel, and Enterprise, which is paved, appear to generate more dust than the processing and storage of materials. With the closing of Enterprise Drive and the submitted dust control measures, staff believes that the site will no longer negatively impact surrounding properties.

COMMISSION FEEDBACK CRITERIA

Project name:

SOUTHPARK ACCU-02-18

Meeting date:

5/3/2018

Project type:

☐ Annexation

☒ Conditional Use

☐ Zoning Change (rezoning)

☐ Other _____

Reviewer name:

JOHN WILLIAMS

Reviewer status:

☒ Commission Member

☐ General Public

Does the scale and use of the proposal fit the context of the surrounding neighborhood?

YES; 30' VARIANCE FOR HEIGHT OF MATERIAL

How would you improve the proposal as submitted?

What do you see as some of the outcomes of the proposal?

EXPANSION OF OPERATION; HIRING ADDITIONAL
EMPLOYEES; CONSTRUCTION OF 60x100' OFFICE/STORAGE

What are your overall comments or suggestions?

THE COMPANY IS PROVIDING USEFUL CONSTRUCTION
SERVICES WHILE ~~REDUCING~~ RECYCLING MATERIAL
AND KEEPING IT OUT OF LANDFILLS.

Please rate the following aspects of the proposal for its level of appropriateness or inappropriateness for its context and for the City of Gahanna:

Not appropriate
or desirable

Does the scale and use of the proposal fit the context of the surrounding neighborhood?

The applicant has demonstrated the ease of use of this property on a temporary basis, making it permanent makes sense.

How would you improve the proposal as submitted?

Showing floor plan, or designs, for office/warehouse proposed for the land use.

What do you see as some of the outcomes of the proposal?

I see the company submitting the proposal having a good history of operating on this parcel, and have a good understanding on how that parcel can continue to be used. I would approve the permanent use.

What are your overall comments or suggestions?

This would benefit the city from an Economic Development stand point, where these materials can be used locally, and we can support their business through purchasing product for local projects.

Please rate the following aspects of the proposal for its level of appropriateness or inappropriateness for its context and for the City of Gahanna:
