Subject: V-0014-2021

Planning Commission,

I am writing in response to V-0014-2021 that is on tonight's agenda. We are in favor of this variance, based on the assumption that the structure will be close to the home, rather than the property line, thus will be both aesthetically pleasing and will not contribute to increased noise levels in our neighborhood.

Thank you for the notification and ability to respond.

Jan and Mark Ross
